## QUANTUM® XL-6000 |

*Unique. Innovative. Progressive.*

THE NEW SINGER® QUANTUM® XL-6000

### The Breakthrough

*Into a New World of Sewing and Embroidery*

*The Breakthrough Starts Right Here:*

#### 1. No more manual threading!

Thanks to the Automatic Threading System. Simply place the thread into the top thread guide and the XL-6000 will do the rest. Sit back and watch the machine thread itself right through the eye of the needle!

#### 2. Unbeatable sewing comfort:

The new Automatic Thread Exchanger™. Large-scale embroidery patterns want a variety of colors – but multiple rethreading can be a tedious task... No longer! The XL-6000 can switch between two thread colors during embroidery fully automatically. After completion of the first color sequence the machine stops, rethreads itself with the next color and continues stitching the next color section.

Unbelievable versatility, all from a single source – the QUANTUM® XL-6000

You need additional information? We will be at your service. Take some time and visit your nearest authorized SINGER® dealer. Test-sew the XL-6000 and experience unrivalled sewing magic yourself. You will also find our full range of accessories, beautiful design cards and many more tips and tricks in our dealers' stores.

#### 3. Endless Bobbin™

Running out of bobbin thread while sewing large embroidery motifs is a well-known hassle. We found the solution. Completely hands-off, the XL-6000 automatically rewinds its bobbin and resumes sewing exactly where it left off.

#### 4. Multi-Color Touch Control Screen for Fast and Easy Pictogram Operation

More than just a simple screen: Your intelligent consultant! Even the most tricky sewing and embroidery queries are solved by the screen, thanks to the machine's built-in instruction manual. Clear, easy-to-understand pictograms guide you through every sewing function, just by touching the screen.

## The Embroidery Genius

Your mind is bursting with ideas? Whether your own original fashions or elegant embellishments: The QUANTUM<sup>®</sup> XL-6000 opens up a totally new world of fascinating possibilities and helps you to unleash your creative potential.

- **The Multiple Hoop Embroidery System lets you sew exquisite, large-scale embroidery motifs in a size you have never seen before, up to gigantic 250 x 450 mm!**
- **Comes with unique Continuous Embroidery Frame for precise and even sewing of long borders.**
- **More features to take your breath away:**
  - Get yourself started with 600 built-in stitch programs including 99 exquisite large floral motifs and heirloom embroidery designs. Or select from a vast array of impressive patterns on the optional Smart Media Design Cards.
  - If this is not enough, you can even create your own embroidery motifs right at your PC with the brand-new Professional Sew-Ware!
  - Fantastic! Single hoop patterns can be embroidered as large as 140 x 240 mm.
  - Magnificent new color images: Use up to 128 colors in one single design!
  - Mirror, rotate, and position your patterns as you wish for endless variations. The built-in pattern layout grids guarantee perfect results!
  - 3 Alphabet styles with upper and lower case letters plus numerals, perfectly sewn and adjustable from 7- 60 mm.
  - 4 Beautiful monogram styles, in an unmatched stitch quality, that can be combined with floral overlays, decorative borders and frames.
  - For special effects: Sew patterns in two contrasting colors using the 2-color sewing function!
  - On the safe side: 32 longterm memory cells with a total capacity of 128 Mb for easy storage of pattern combinations.

## The Sewing Genius

Creating your own designer fashions and trendy accessories is your passion. You love sewing exquisite table linens, decorative pillowcases and curtains. Then you know what to expect from a sewing machine: Perfectly sewn utility stitches on any of your chosen fabrics, plus effortless operation.

- **With the XL-6000 you will discover a totally new world of sewing convenience**

Never before have you experienced a sewing machine that handles such a huge variety of standard sewing tasks fully automatically. One touch of your finger is enough to find the proper stitch for any type of fabric.

Choose from 600 built-in stitch programs including a vast array of professional utility stitches, 18 different buttonhole styles, darning programs, and the SINGER<sup>®</sup> exclusive patented quilting stitch that looks hand quilted.

For special effects you'll find dozens of different quilting and heirloom stitches.

- **An absolutely new sewing adventure**

**NEW!** Exclusive from SINGER<sup>®</sup>:  
**Wind-In-Place Bobbin System™!**  
Automatically winds thread from the top spool directly to the bobbin merely by touching a pictogram on the screen.

**NEW!** Computer-controlled thread metering system:  
Guarantees the perfect thread tension for every type of fabric used.

**NEW!** Automatic simultaneous cutting of top and bottom threads at the end of a program.

**Clever:** The knee lift raises and lowers the presser foot for you – your hands stay free for guiding the fabric!

**Turbo:** A sewing speed of up to 850 stitches per minute, infinitely adjustable even while you are sewing.
