SINGER® QUANTUM® FUTURA™

THE IDEAL SEWING MACHINE

An unbeatable team!

Keen sewers want high-performance, easy-to-operate sewing machines with professional stitch programs. Passionate embroiderers love big, bold designs and a huge selection of patterns for variety. Why not taking advantage of both worlds?

Sewing enthusiasts no longer need to puzzle over this query thanks to the QUANTUM® FUTURA™ with its revolutionary new concept: A modern sewing machine for today's varied sewing projects that perfectly couples with a PC for exceptional embroidery work! In other words: Endless possibilities of an exclusive embroidery machine for the price of a conventional sewing machine!

Superb on its own – A first-class sewing machine!

Essential for handling present-day materials with ease and precision is a high-performance sewing machine. Equally important is ease of use for extra sewing comfort! With fun sewing in mind, the QUANTUM® FUTURA™ has been equipped with exceptionally user-friendly SINGER® features and professional computer technology.

A perfect couple! The QUANTUM® FUTURA™ paired with your PC!

Self-sewn creations are always original. Adding creative embroidery, personalized letterings or embellishments will turn these creations into unique things. Your PC is a never-ending source of exquisite designs that could never be accommodated in a conventional sewing machine. When linked up with the QUANTUM® FUTURA™, you'll get an unbeatable team for unprecedented sewing fun!

All you need is a USB cable, the machine's embroidery unit and the FUTURA™ software – the rest is incredibly easy!

It's child's play!

Just link it up with your PC,
attach the embroidery unit,
and select a pattern.
Start embroidering!

... and discover this embroidery machine's sensational pattern options!

THE PERFECT COUPLE

Connect the
sewing machine

SINGER® QUANTUM® FUTURA™

THE IDEAL SEWING MACHINE

For best sewing results!

You like sewing because you enjoy creating out-of-the-ordinary things, using special fabrics, colors and your imagination?

The **QUANTUM® FUTURA™** will surprise you with extraordinary features: Precise handling of today's fabrics, like stretch, velvet, viscose or leather. Professional extras, like fully automatic buttonholes or industrial-type bartacks, perfectly sewn, to give your self-designed creations a professional finish. Exquisite decorative stitches, up to 7 mm wide, giving your work a personal touch. Or special quilting and heirloom stitches for traditional embroidery work that looks hand-sewn! 13 needle positions make top stitching and zipper insertion a breeze.

And most importantly: Unmatched ease of use thanks to innovative computer technology enabling you to fully concentrate on your sewing projects!

LED Display

Ergonomic control panel

Automatic needle threader

13 Needle positions

Top drop-in bobbin

Snap-on presser feet

126 Utility and decorative stitch programs

4 Fully automatic buttonhole programs

Needle up/down function

Fast and easy:
Machine-sewn
quilt stitches with
a hand-sewn
touch!

SINGER® QUANTUM® FUTURA™ + COMPUTER

THE PERFECT COUPLE

Instant access to embroideries galore when linked up with your PC!

Fantastic large-scale patterns. Revelling in colors and designs. Embroidering beautiful, unmistakably unique things. It's all incredibly easy!

In just a few simple steps the **QUANTUM® FUTURA™** can be converted into a one-of-its-kind embroidery machine. The extremely user-friendly, self-installing **FUTURA™ software** guarantees ease of use, even for beginners. Because the machine's integrated step-by-step tutorial and easy menu guidance provides fast assistance, anytime! Up to the finished embroidery motif! A great extra help are the software's many tips and hints for machine embroidery, making your new hobby as easy as counting to three!

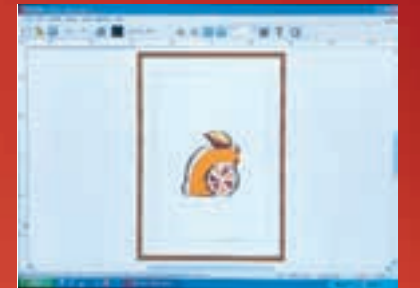

System Requirements:

- > PC with minimum PENTIUM II processor
- > Windows 98 or higher
- > 64 MB RAM
- > CD-ROM drive
- > 500 MB (or more) of available hard disk space
- > Color standard VGA adapter
- > Microsoft compatible mouse

1

Select a pattern

A myriad of embroidery options to choose from: Select a pattern from the **FUTURA™ software**, use clip-art you like, or download a pattern from the Internet.

2

Edit it and send it to the machine

If you like, you can change the pattern size, select and play with different colors, or get a preview of the embroidered motif on a chosen background color. When you're finished, it only takes a mouse click to send the pattern to the machine.

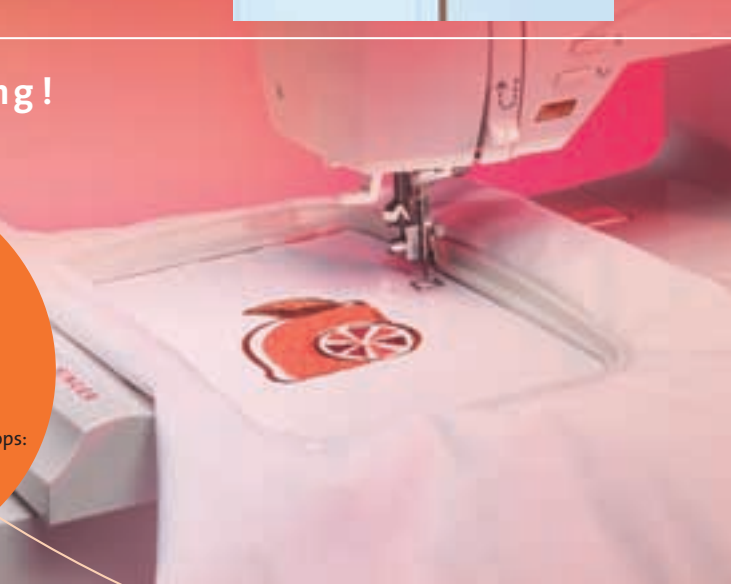

3

Start embroidering!

Complete embroidery package included!

- > FUTURA™ software (with 60 embroidery motifs)
- > Bonus CD with 60 additional embroidery designs
- > AutoPunch software
- > USB cable
- > Including embroidery unit and hoops:
 - Large hoop 115 x 170 mm (4 1/2" x 6 3/4")
 - Small hoop 80 x 120 mm (3 1/8" x 4 3/4")

SINGER® QUANTUM® FUTURA™ + COMPUTER
THE PERFECT COUPLE

A never-ending source of patterns. Plus your ideas!

You've just come up with a good idea? The QUANTUM® FUTURA™ will provide you with a matching pattern. Thanks to the computer link you'll get an endless selection of extraordinary embroidery motifs: From special occasions like birthdays or weddings, to beautiful seasonal decors, or sports logos – from now on the most original gifts will always come from you! And if you can't find an adequate pattern on the embroidery design CD or in the Internet, your very own ideas can easily be transformed into professional embroidery motifs with the special AutoPunch software. Your projects can't turn out more individual!

> Direct pattern selection from Embroidery Design CD

The fastest way to beautiful embroideries!
The QUANTUM® FUTURA™ software, plus a bonus CD provide instant access to a total of 120 superb embroidery motifs. Simply select a pattern, send it to the machine and start embroidering!

> Create your own designs with AutoPunch

Nearly everything can be embroidered nowadays!
Just scan in your favorite company logo, special lettering or symbol, and the software will automatically fill it with stitches and send it to the machine. Turning Windows clip-arts into embroidery designs is just as easy – providing you with an immense pattern variety!

> An unlimited data base: The Internet!

Selecting patterns from around the globe keeps everybody happy! Endless pattern options, plus easily available online up-dates guarantee all-time new ideas. Patterns can simply be selected, downloaded and sent to the machine. The QUANTUM® FUTURA™ accepts all popular formats. With professionally embroidered results!

But that's
not all ...

Optional embroidery packages expand the machine's possibilities beyond any expectations!

> PhotoStitch

Your favorite photograph – embroidered on a cushion, bag or placemat!
The PhotoStitch software turns your scanned-in photos into original embroidery motifs.

> HyperFont

You like embroidered letterings? No problem with the special HyperFont software that converts any Windows True Type® fonts available on your PC into embroidery!

> CrossStitch

Exquisite, nostalgic cross stitch patterns have a special meaning for every passionate embroiderer!
With this special software you can embroider selected patterns as cross stitch images – endless possibilities for embroideries with a hand-sewn look.

SINGER® QUANTUM® FUTURA™

THE IDEAL SEWING MACHINE

Modern technology for truly high sewing comfort!

A huge selection of professional stitch programs, plus an outstanding performance are the essential basis for excellent sewing results!

Living up to present-day expectations, the QUANTUM® FUTURA™ offers an array of convenient extras for extremely easy, comfortable operation. Sewing fun guaranteed!

Automatic needle threader

No need to look for the needle's eye!
Simply place the thread into the automatic needle threader and pull it through – within seconds the needle is ready to start!

SINGER® one-step buttonhole system

The fastest possible way to sew a perfect buttonhole! Simply place the button in the buttonhole foot's guide and the machine will do the rest, fully automatically.

Top drop-in bobbin system

Fast and easy bobbin insertion from the top. An extremely handy feature making bobbin insertion, removal and cleaning exceptionally simple.

Ergonomic operation panel

A fabulous, industrial-type detail is the ergonomically positioned operation panel with recessed buttons. It lets you operate the machine with great comfort and ease.
